---

## Education

### North Carolina State University, Raleigh, North Carolina

Bachelors of Science in Interdisciplinary Studies, Self Design (August 2020 - May 2024)

Concentration: Human Computer Interaction and User Experience Design

Minors: Computer Programming, Cognitive Science, and Psychology

## Professional Experience

### Research Intern

(August 2023 - Present)

Raleigh, North Carolina

Cognitive Behavioral Lab, NC State University

- Designing and coding an experience research application for Vanessa Woods' Biophilia Reactivity Hypothesis using Human Centered Design in Figma and full-stack Javascript
- Developed, tested, and deployed a Python web scraper to survey the state of the American Horticulture Industry and scraped over 40,000 emails
- Collect and analyze data like eye-tracking (AOIs) and biometric data in iMotions

### Data Architect

(April 2023 - August 2023)

Raleigh, North Carolina

Interdisciplinary Studies, NC State University

- Received Provost Grant funding to grow a database of hundreds of community partners and a faculty network of sponsors and associates for NCSU Interdisciplinary Studies
- Curated an extensive base of learning materials for students' self-directed majors

### Promotions Director

(May 2021 - May 2022)

Raleigh, North Carolina

WKNC 88.1 FM, NC State University

- Designed content, wrote copy, and served as the main point of contact for WKNC on Instagram, Twitter, and Facebook
- Processed and signed donor announcements with LiveNation
- Coordinated shows and giveaways between Raleigh venues, artists, promoters, and listeners
